Two Great Guided Systems from DMT®

Aligner™ Easy Edge-Guided Sharpening Kits:

(Products include the PRO, ADELUXE, HONING, and QUICK kits as well as the Aligner™ and Aligner™ Accessories.)

- Precisely Micronized Monocrystalline diamond coating sharpens any edge with ease.
- Original DMT® dot pattern keeps edge contact clean.
- No messy oils needed—just use water.
- Guide with 7 angle settings ensures precise bevels from razor to cleaver edges.
- Stable clamp design firmly holds knives of nearly any size or thickness.
- Serrated sharpener attachment* allows sharpening of notched and curved blades.
- Kits offer a variety of grits and combinations, as well as storage options.

Diafold® Magna-Guide™ Sharpening System:

- All the same features as the Aligner™ Kits*, plus an innovative *magnetic angle guide attachment* engineered to work with any DMT® double-sided Diafold® product.
- Unique patented design provides convenient guided sharpening on the go!
- Angle Guide available in 4- and 2-stone kits (DMG-4 and DMGEF) or may be purchased individually (DMG).

* Serrated sharpener attachment available in PRO and ADELUXE kits.

Aligner™ Kits offer a variety of grit combinations and include both fabric (above) and hard carry case options (shown on reverse). Components and accessories may also be purchased individually.

The Diafold® Magna-Guide™ System provides convenient guided sharpening on the go!
